

Wind corpus diversity | 131 farms | 31 offshore, 100 onshore

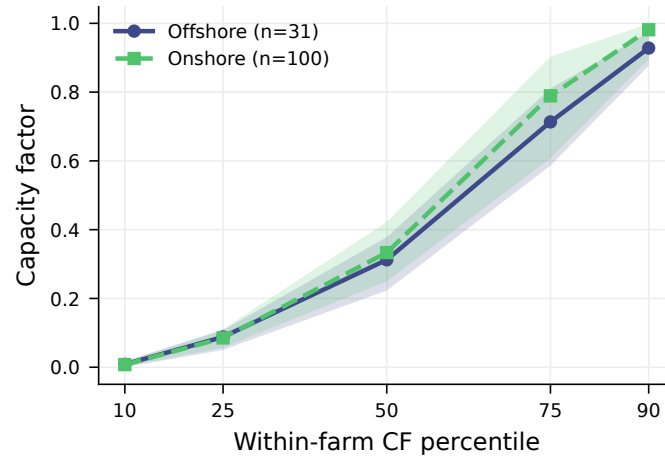

a Operating characteristics

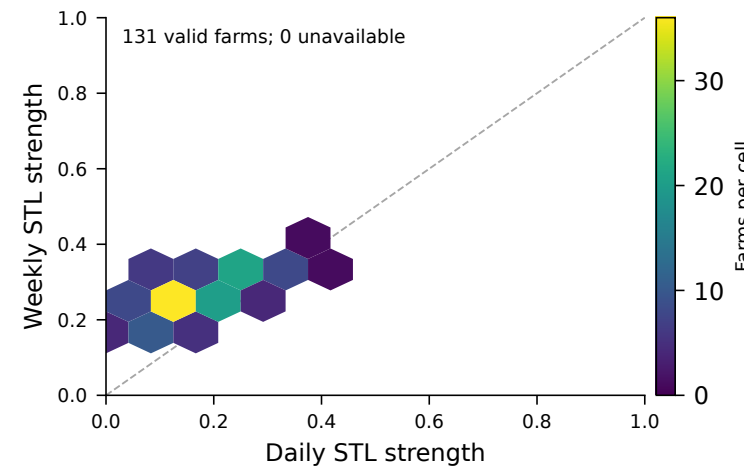

c Temporal coverage

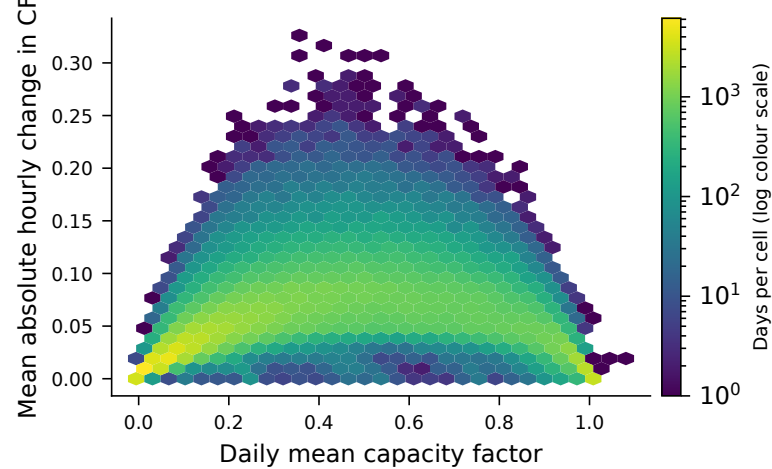

b Output distributions

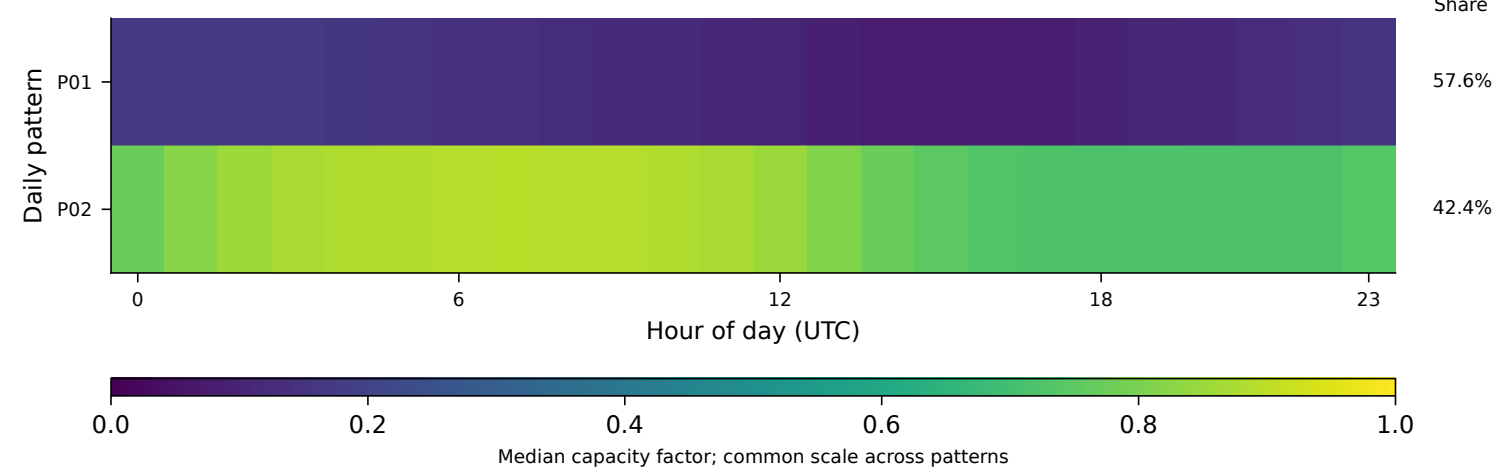

d Daily and weekly seasonality

e Daily output and variability

f Daily-pattern matrix

a: distributions across farms; point / bar = median / IQR. b: median and IQR across farm quantiles (not confidence intervals). a, b, d: equal farm weighting. e, f: equal day weighting.
